## NEW OFFICIALS

### Charge of Eastern Kentucky Lunatic Asylum.

Dr. J. S. Redwine and his assistant, Dr. Louis H. Mulligan, have taken formal charge of the Eastern Kentucky Lunatic Asylum, D. E. M. Willie, retiring Superintendent, will be in Lexington to practice his profession. Dr. Redwine, who is a member of Circuit Judge D. B. Redwine's family, is a physician of considerable experience. After graduating from the Kentucky School of Medicine, he has been in the practice of his profession with much success. He located at Farmers in Rowan county, but in 1892 removed to Jackson, where he has since practiced. He is a member of the Kentucky and Ohio Valley Medical Associations, and while at Jackson was the Association's Breath-It county referee. Dr. Redwine is thirty-seven years old and has an interesting family, who will reside in Lexington.

Dr. Mulligan is the son of the Hon. James H. Mulligan, late Consul to Moscow, and has had wide experience as a man of his years. He is a graduate of the Kentucky School of Medicine, at Louisville, and a student of the Ohio Medical College, at Cincinnati. After graduation he practiced for more than a year as surgeon on a Pacific Mail steamship off the coast of Central America.

### Big Freeze in June.

D. J. Pendleton, of Winchester, writes the following:

"Doubtless there are many persons still living in the counties of Bourbon and Clark, who remember the unique weather that prevailed on the early morning of June 5th, 1857.

"Throughout the valley of Big Stoner Creek, from Paris to the headwaters of said creek in the Hunt neighborhood, near where Thos. J. Scott now resides, a freeze or biting frost nipped all the vegetables in the gardens, level with the ground, including tomato plants, beans, cabbage and Irish potatoes. The corn, which in many places, was eighteen inches high, was bitten and badly crisped by the frost. The wheat in some places was badly injured by the freeze. The farmers quickly replanted their vegetable gardens, and finally raised a plenty, except the Irish potato crop, which never did recover from the disaster. The wheat crop did very well generally that year, and in the autumn an average crop of corn was secured.

The popular view of the relation of blood to the human character and conduct is marked in many a familiar expression. We speak of there being "bad blood" between people at enmity, of "blue blood" as indicating ancestry, of "black blood" as describing a treacherous nature, and in many another phrase mark our belief that in the mental, moral and physical man, "the blood is the life." The one basis of a healthful, happy and useful life is pure blood. With the blood pure, disease has no permanent lodging place in the system. For this reason the use of Dr. Pierce's Golden Medical Discovery aids the body of diseases which have their origin in impurity of the blood. It absolutely purifies the blood, carrying off the waste and poisonous matter, increasing the action of the blood making glands, and building up the body by supplying the blood in quantity and quality such as is essential to a condition of health. It cures ninety-eight people out of every hundred who give it a fair trial.

British losses incident to the South African war up to June 9th, are officially given as 23,664 men, besides 792 officers, and 12,355 men sent home as invalids.

Unless food is digested quickly it will ferment and irritate the stomach. After each meal take a teaspoonful of Kodol Dyspepsia Cure. It digests what you eat and will allow you to eat all you need of what you like. It never fails to cure the worst cases of dyspepsia. It is pleasant to take.

## Announcement.

To the democrats of Montgomery county, Ky:

As my friend wants me to make the race for governor of this grand old commonwealth of the state of Kentucky I will except the honors in which the best of me and if I should be elected to fill this important position you may bet your boots on having a true blue democratic governor there for I hope our party will drap all our little troubles which have existed in our ranks and come together as a band of christian brothers and place our grand old state in the hand of good old law abiding democrats. We ought not to give our state over to our political enemies just because we don't agree at times on little trifles among our selves. Don't you know it pleases the enemy to death to see us acting in that still how the light in calling our brown side of the democratic party honest democrats. Of course it pays them to brag on the browns it gives them a better chance to knock us out and get our state under a republican administration. Oh, let us open our eyes and see to the trust of the democratic party of our state, the question now is are we so all fired mad at each other that we would rather have republicans to rule our selves I for one say no give me a democrat governor or none, let us elect men that will be guided by the constitution and laws of our state we want men elected and put in office by the honest and legal voters of our people and not by assassination and bayonet power. That is my style of an election, for the lords sake cant we come together and redeem our good old democratic count which is usually from 20 to 40 thousand majority for the democratic party when we have a honest and square election. So if I don't get the nomination I will be found a working jester as hard for the lucky man if he is the regular nominee of the democratic party. I want get mad enough with a few little summer tricks because I were not the favorite and help to defeat my party. If I do then you may say I belong to no party.

### SUMMER COON.

### Democratic Family.

[Stanford Democrat.]

Mr. Cleo Reynolds has been at Waynesburg surveying some land for Mr. H. H. Webster, who recently moved here from Grant county. Mr. Reynolds informs us that Mr. Webster says Grant has 2,600 Websters within her borders, and that all are Democrats save five. One of the five will vote the Democratic ticket next November because the Republicans recently shut off his pension. One old gentleman in that county named Webster has ninety-nine children and grandchildren, all Democrats dyed in the wool. The 2,600 mentioned must include women and children.

### Seven Good Reasons.

During a temperance campaign a lawyer was discussing learnedly the clauses of the proposed temperance law. An old farmer, who had been listening attentively, shut his knife with a snap and said: "I don't know nuthin' about the law, but I've got seven good reasons for votin' for it."

"What are they?" asked the lawyer.

And the grim old farmer responded:

"Four sons and three daughters."

Starvation never yet cured dyspepsia. Persons with indigestion are already half starved. They need plenty of wholesome food. Kodol Dyspepsia Cure digests what you eat so the body can be nourished while the worn out organs are being reconstructed. It is the only preparation known that will instantly relieve and completely cure all stomach troubles. Try it if you are suffering from indigestion. It will certainly do you good.

England and British dependencies shipped nearly 90 per cent of Manila's imports in March, the imports being \$769,814. The American imports were only \$109,386.

## ROYAL Baking Powder Absolutely Pure

Makes hot breakfast-breads wholesome—no yeast germs, no alum. Makes cake, biscuit and pastry of superior fineness, flavor and delicacy. Makes food that will keep moist and sweet. Is most economical, because it is the purest and greatest in leavening strength. In the easy, expeditious preparation of the finer cakes and pastries, Royal is indispensable.

Care must be taken to avoid baking powders made from alum. Such powders are sold cheap, because they cost but a few cents per pound. Not only will they spoil the cake, but alum is a corrosive acid, which taken in food means injury to health.

### Some Extracts From A Paper In The Interest of Colored People.

Fourth issue of the organ of the colored people of Madison county shows a marked improvement over former issues. Below we make some extracts which everybody will endorse, clipped from a well written article on "Educational Problems" by Prof. C. W. Reynolds, Superintendent Richmond Colored High School:

"The great problem of modern education is to unite education with culture, these two making the individual of the greatest culture, also the man of the greatest power."

Primarily, it is the function of education to produce power as well as culture, and these two should be united in the same personality."

"The question is, do our boys and girls come forth intelligent men and women, prepared for life, capable to think and act for themselves, to be self sustaining, to seek and get the best of life?"

"The highest practical good that can come to any individual, is through the true nobility of toil, of brain, heart and hand."

Editorially, the paper is feeling its way carefully toward the question of the influence of the Negro, and well says that "politics and denominations amount to nothing when they do not represent your highest interests."

"When the Negro learns to stand

also by substantial friends regardless of denominational or political lines that may divide them, his friendship will then be sought and his influence will be felt and appreciated."

We may add in the language of the foremost Negro educator of America, Booker T. Washington, that what his race needs is education, accumulation, and political independence. Although Richmond is crowded with newspapers there is a broad field for the Rambler, and the Climax wishes editor Embury nothing but success in his effort to raise the standard of citizenship, education and respectability of the colored brother, whom we have with us always.

### Quick Relief For Asthma.

Miss Maude Dicke, Parsons, Kan., writes: "I suffered eight years with asthma in its worst form. I had several attacks during the last year and was not expected to live through them. I began using Foley's Honey and Tar and it has never failed to give immediate relief."

### Another Republican Joins The Democratic Ranks.

In renouncing his allegiance to the Republican party, Mr. Nadaud in a speech in Covington said:

"Let us repeat lest we forget, that under Republican rule murder was made a weapon of party warfare, and Gov. William Goebel, our fellow-citizen and neighbor, whom we loved, honored and were proud of for reason of his sober brain, mighty intellect, magnificent bravery, staunchness to friend, chivalry to women, pureness of life, unostentations in his many acts of charity, a man of large heart and strong principle, at all times a Kentuckian and a Democrat, true to himself, his party, his State and loyal to the great common people—of such was Wm. Goebel, man and statesman—was assassinated when, under Republican rule in Kentucky, murder was made a weapon of party warfare."

"Tis indeed true the greatest creature of God is man, but the greatest creation in man by God is principle, and principle is paramount to political affiliation with the Republican party in as much as the present policy of that party conflicts with the very foundation of free American government."

"As to the dishonest criticism that attempts to fasten its foul pollution upon the character of men of principle, I will say with a personal application that in the future, as in the past it would be an insult to my manhood and honor to do otherwise than to leave such with God, who, in the great eventide of eternity will right all wrong."

"It is not without silent tears that I leave the party of my early manhood, but believing the Democratic party does maintain coherent the principle of liberty, justice and right, and thus seeing the light to the inestimable honor of being an American and Kentuckian, I create honor in future by affirmation that 'I am a Democrat.'"

As Mr. Nadaud was a prominent candidate in the last city election for the office of Mayor on the Republican ticket, his speech was received with the greatest enthusiasm, and the immense crowd present claimed that he would never regret his change in joining the ranks of true Democracy.

### Pitiable Condition of India's Dying Thousands.

The reports from that famine-stricken section are so appalling that one stands dumfounded that such horrors could exist. Ten millions of people are in danger of death by sheer hunger, and the woe has not yet reached its worst. Face to face with starvation stand countless women and children, and equally helpless men. Thousands are dying daily, and the small amount required to support a human life there should cause a liberal contribution on the part of Americans.

### An Honorable Discharge.

Woodson Taulbee has received an honorable discharge, at the hands of the President, from his regiment which was stationed at Jefferson Barracks, St. Louis. Shortly after Taulbee received his discharge the regiment received orders to go to Manila. Mr. Taulbee arrived in this city Wednesday last and will remain here until September 1st, when he will leave for Annapolis, Maryland, to enter the Naval Academy.

### Conviction and a New Trial.

At Nicholasville two of the Kendall, father and son, were convicted for killing a prominent farmer, Mr. Cassell, and were given five years. Judge Scott granted a new trial. The evidence against them was weak. Bail was reduced to \$2,000 each.

After consulting with leading colored business men all over the country, Booker T. Washington, of Tuskegee, Ala., has decided to assist in the organization of a national negro business league.

It has been discovered that the trophy Spanish cannon loaned Kansas City for use in one of the parks has been heavily loaded with powder and projectiles ever since it left Manila.
